PROJECTS

ABES Digital Notice Board | *Flask, Python, Bootstrap, SQLite, Jinja2*

abes-notice-board.onrender.com

- Built a secure notice management system for educational institutions with admin authentication and session-based access control.
- Implemented full CRUD functionality for creating, editing, and archiving notices, backed by a SQLite database.
- Designed a responsive Bootstrap dashboard with analytics and charts to display notice engagement.

AgriFarm - Crop Disease Detection Platform | *HTML, CSS, JavaScript*

crop-disease-detection-waad.vercel.app

- Designed and deployed a responsive web platform enabling farmers to list and sell crops directly to consumers, removing middlemen.
- Built an AI-powered crop disease detection feature to help farmers identify crop issues early.
- Built intuitive crop listing pages and navigation flows focused on usability for non-technical users.

EXPERIENCE

Founder and Web Manager - Sairela (E-Commerce Brand)

2024 - 2025

- Built and managed a Shopify-based e-commerce storefront end-to-end, owning all technical and operational functions.
- Delivered 120+ customer orders within 2-3 months, managing the process from product listing to order fulfillment.
- Planned and executed digital marketing campaigns on Instagram and Meta Ads to drive customer acquisition.
- Applied SEO best practices to product titles and descriptions to improve organic discoverability.
